SOFTWARE INTERFACE

NVR 6.0

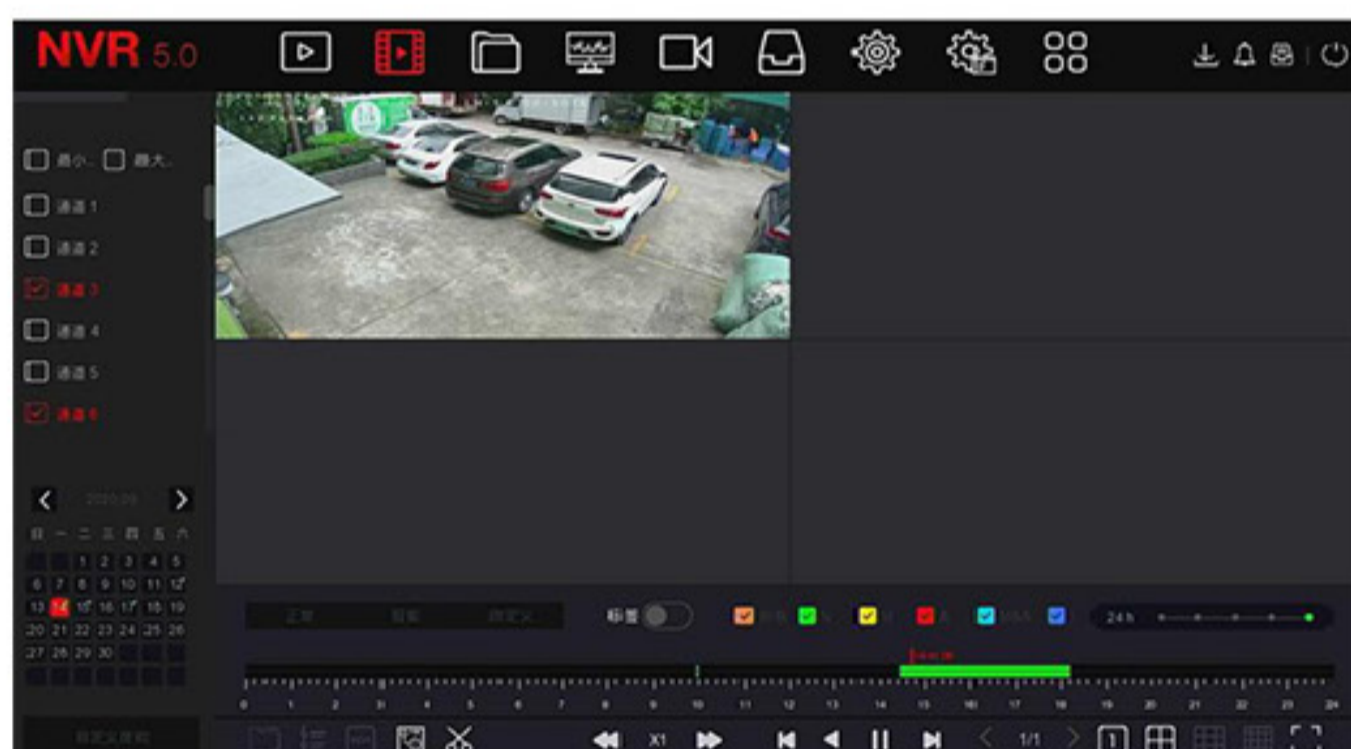

VS

NVR 5.0

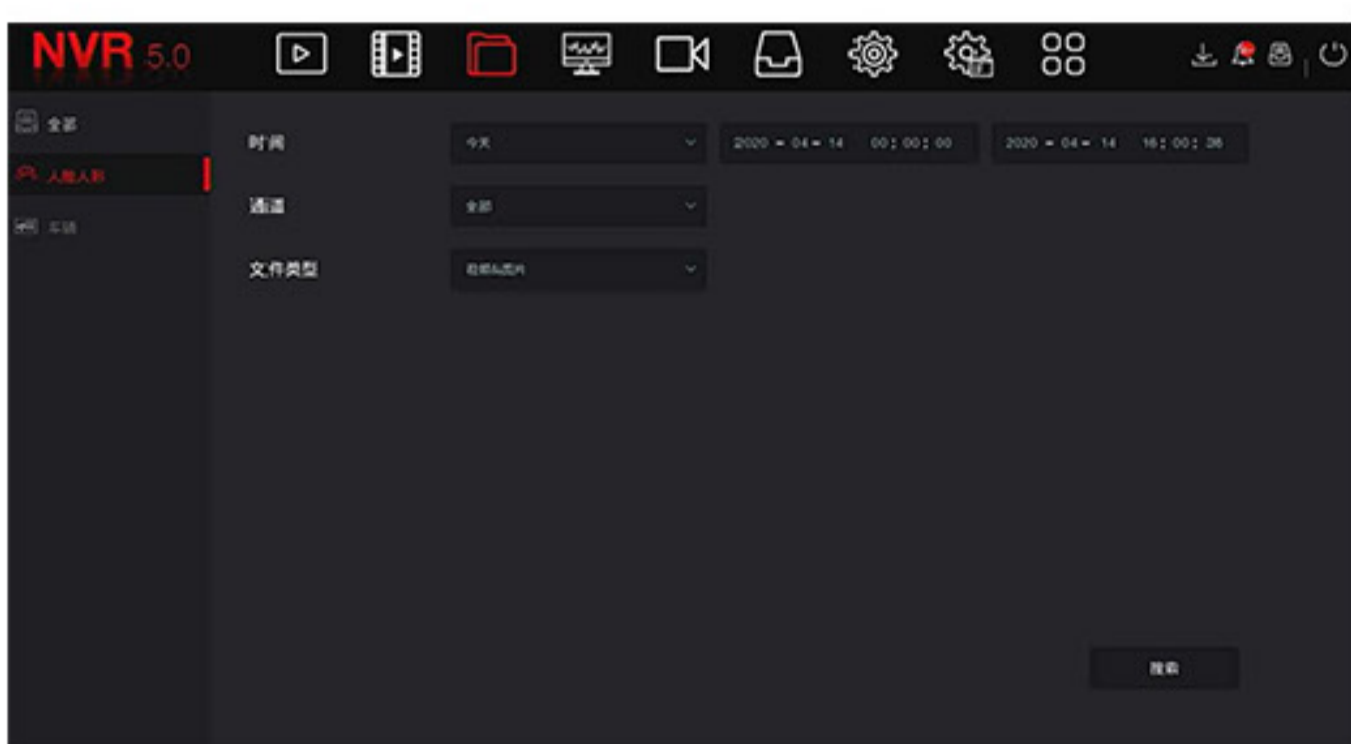

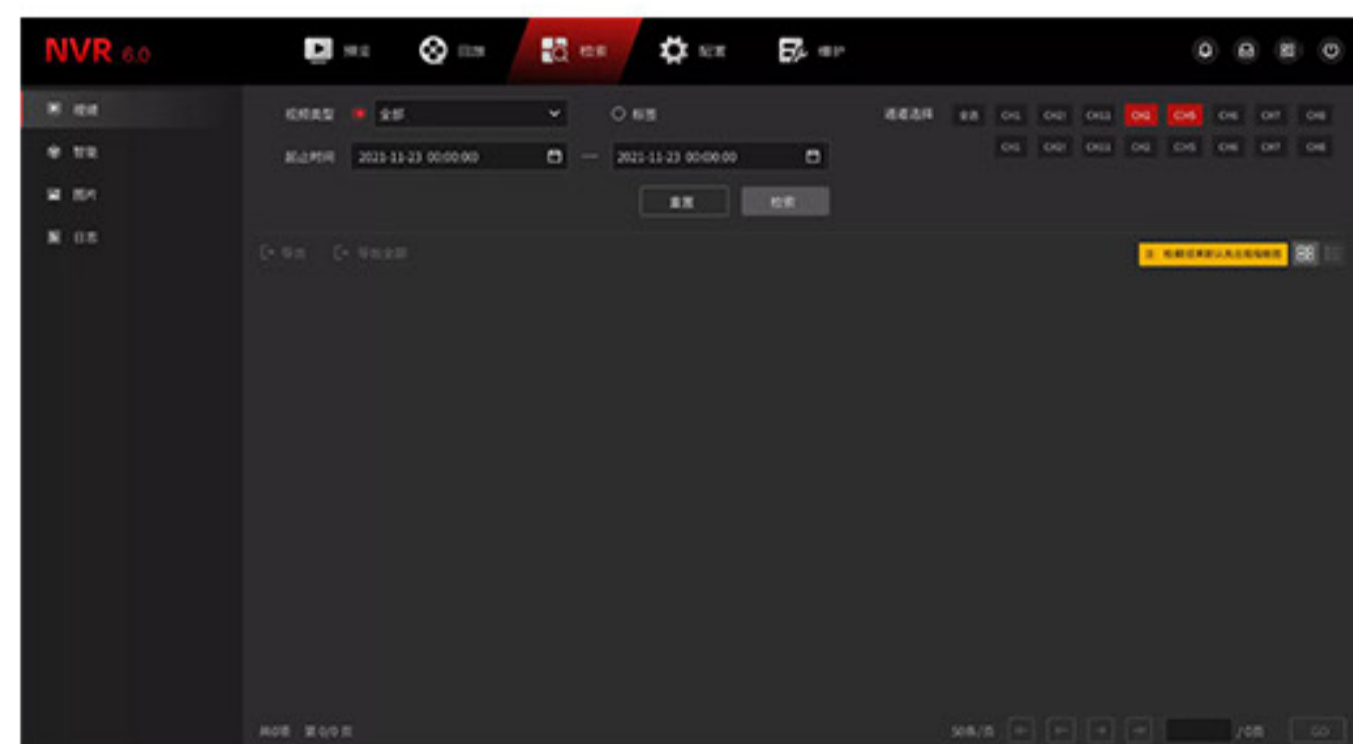

Preview Interface

The NVR 6.0 interface is simpler and allows users to quickly operate common functions, such as split screen, route cruise, capturing image, and electronic magnification.

Playback Interface

The ICONS of NVR 6.0 are more standardized and the information displayed is more clear and intuitive.

Search Interface

The retrieval types are classified into four categories: video, intelligent, image, and log. You can also search by tag.
