Which focal length lens should I choose ?

1 / **2.8 mm**

Small focal length for close and large angle of view.

2 / **3.6 mm**

Generally applicable to scenarios with limited scope.

3 / **4 mm**

Suitable for use in wide angle scenarios, such as conference rooms, lobbies, etc.

4 / **6 mm**

Large focal length for long distance and small angle of view, such as parking lots, corridors, patios, etc.

Q:

What does IP67 mean for weatherproof ?

A:

The IP code or ingress protection code indicates how well a device is protected against water and dust.

The 6 indicates complete protection against contact (dust-tight).

The 7 indicates ingress of water in harmful quantity shall not be possible when the enclosure is immersed in water under defined conditions of pressure and time (up to 1meter (3 ft 3 in) of submersion).
