ONE-STOP SERVICE OEM/ODM

From Hardware to Firmware and App
From Camera to Recorder and Accessories

10 One-stop OEM/ODM Service Reasons to Choose

01

Independent R&D

Provide personalized solutions

02

Reliable Quality

Focus on the stability and reliability of product quality

03

Professional Team

Provide professional technical support and solutions.

04

Flexible Customization

Including product appearance, function, software customization, etc.

05

Cost Control

Provide more reasonable prices and high-quality products.

06

Quick Response

Provide timely technical support and product update services.

07

Protect the Interests

Ensure that customers' intellectual property and business secrets are protected.

08

Brand Influence

Improve the customer's brand image and market competitiveness.

09

Comprehensive Service

To provide customers with one-stop service.

10

Win-win Cooperation

Establish a long-term and stable cooperative relationship

Remote View

24/7 Full Color

The camera provides high-quality full-color images both day and night, allowing users to have a better visual experience.

Sound and Light Alarm

When the camera detects a human body within its range, it will immediately flash and send out an alert, which will be pushed to the mobile app.

Red & Blue Lights Alarm
Voice & White Light Warning

White Light Warning

Two Way Audio

The camera is equipped with a high-sensitivity microphone and a high-power speaker, achieving high-quality remote pickup and high-fidelity voice restoration.

You have a package.

Please leave it at the door, thank you!

Wireless Connection

400-meter Wifi Range

Wireless connection solves the problem of network cable wiring, combined with an enhanced WiFi receiving antenna, it easily achieves wireless networking, and it supports 400 meters long-distance transmission in unobstructed scenes.

Plug and Play, Easy Connection

01 Connect the camera and NVR to the power source.

02 Connect the video recorder to the monitor

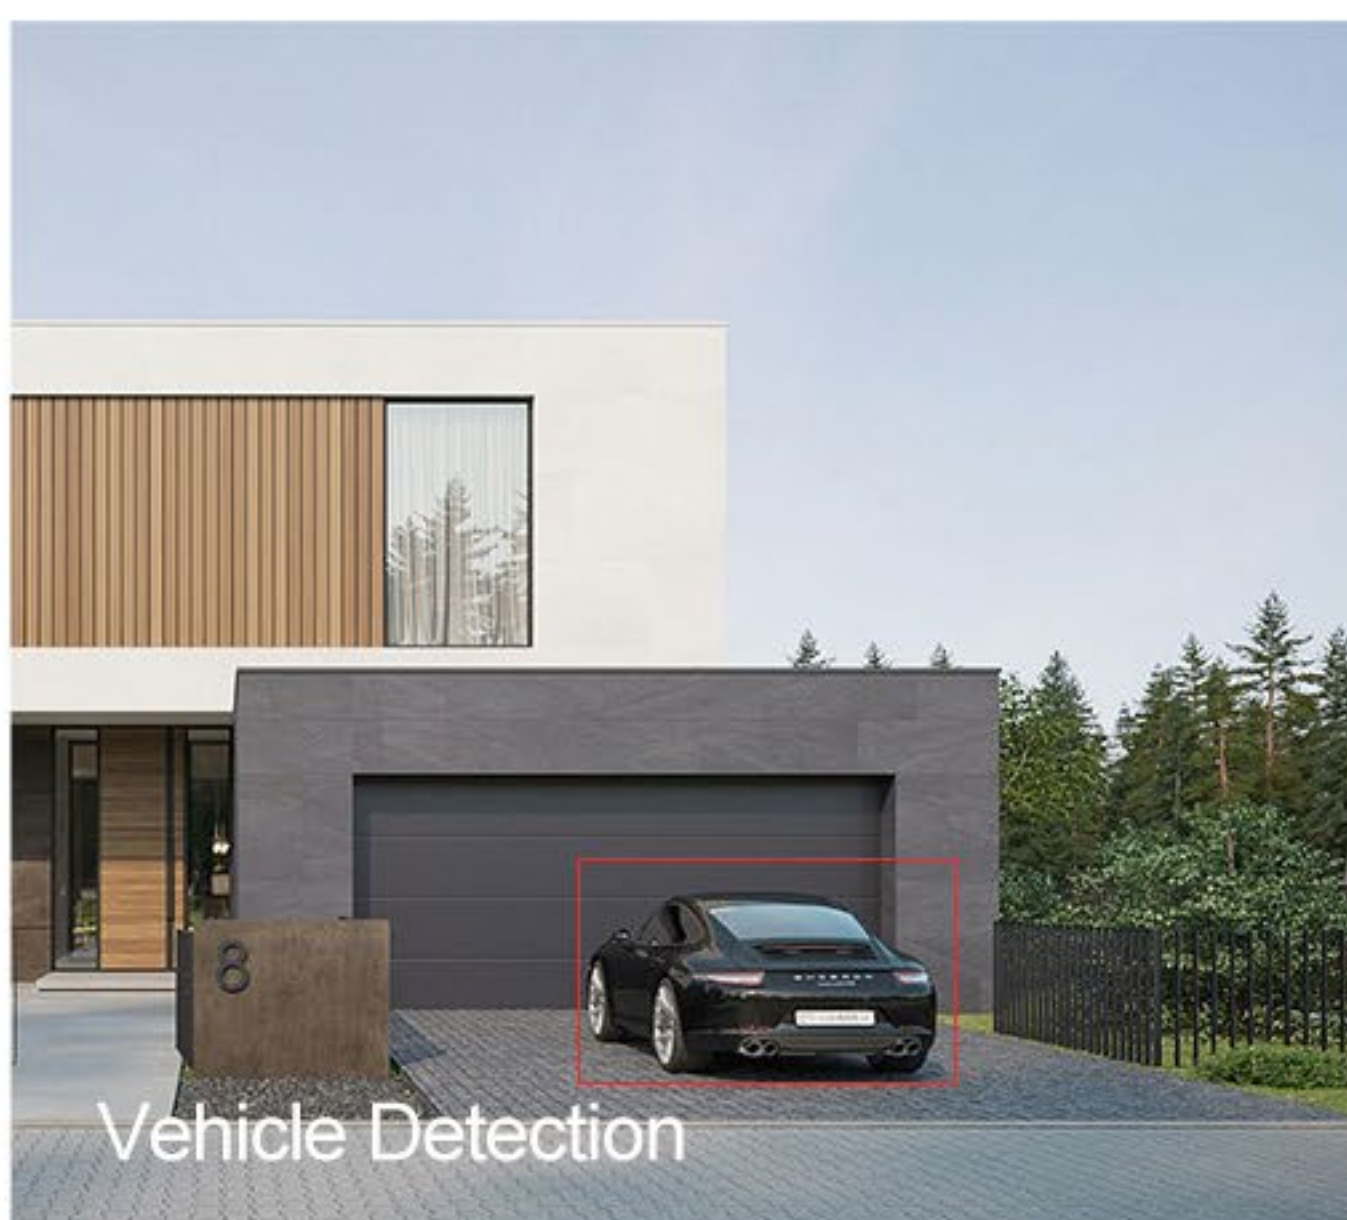

03 Select matching WiFi and view the monitoring screen

Human & Vehicle Detection

When the camera detects strangers and vehicles within its monitoring range, it will send notifications through the app to alert the user.
