- ② *Easy to use*

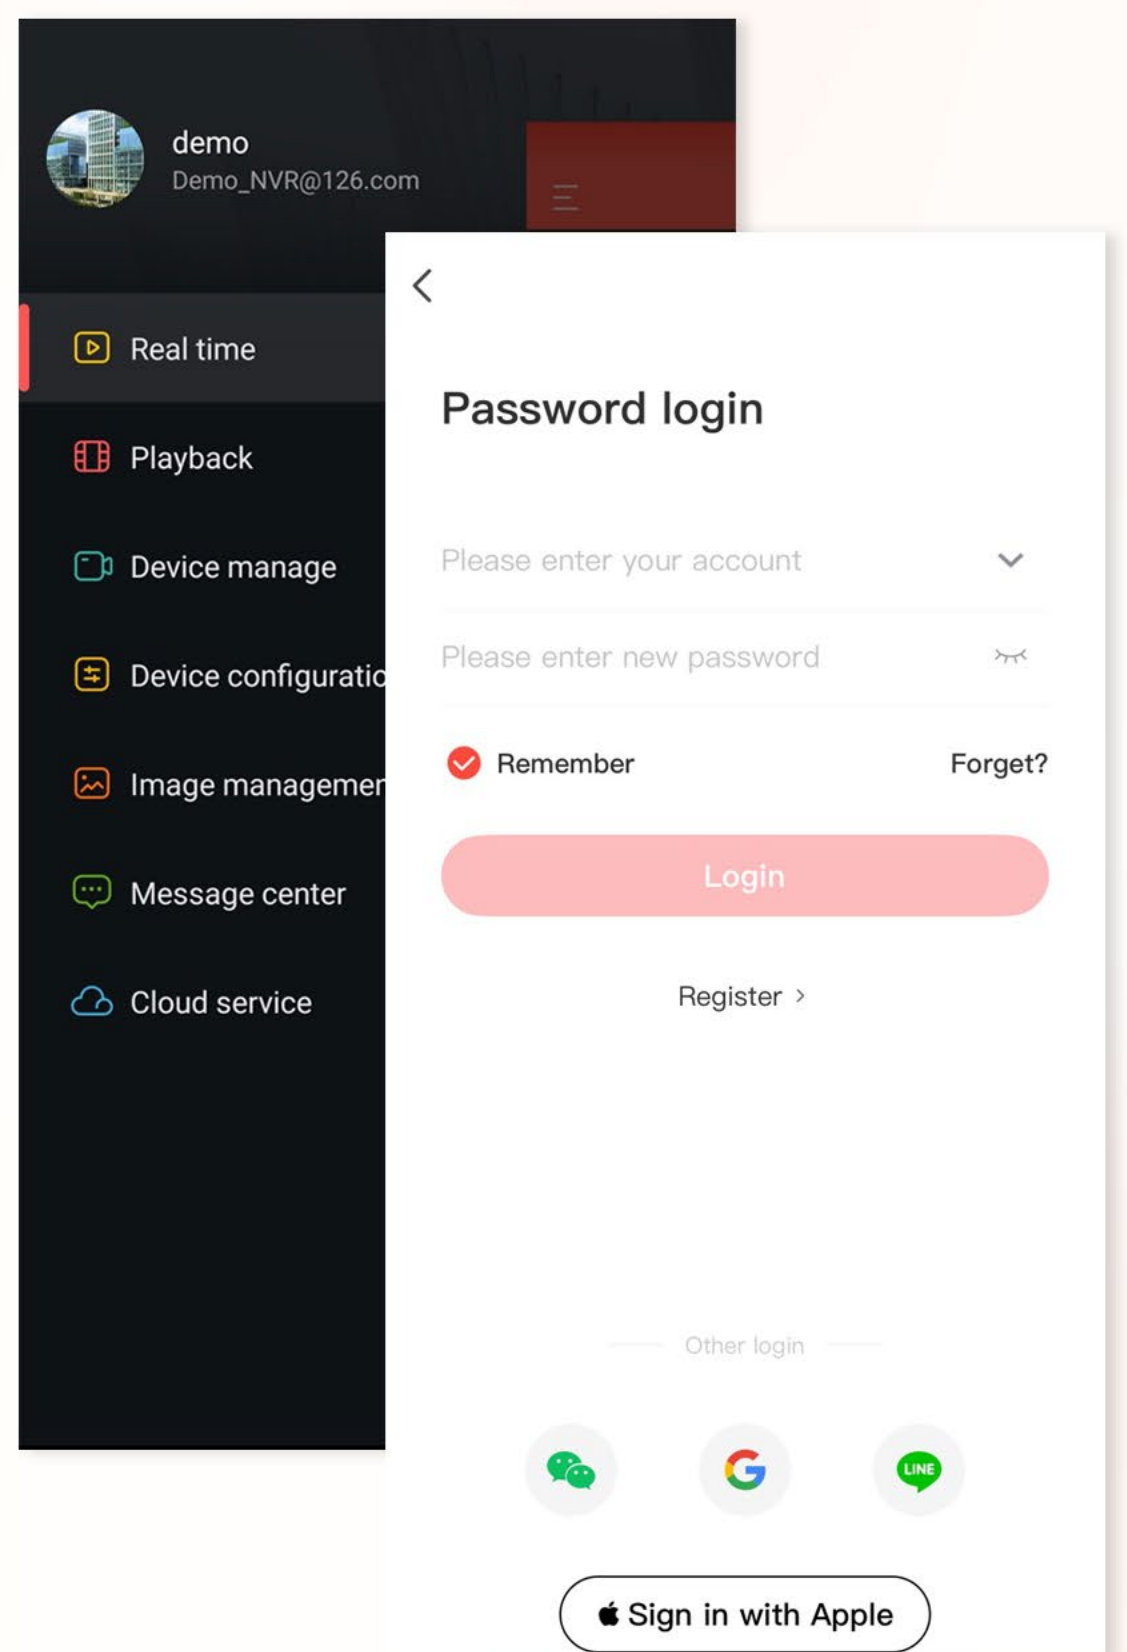

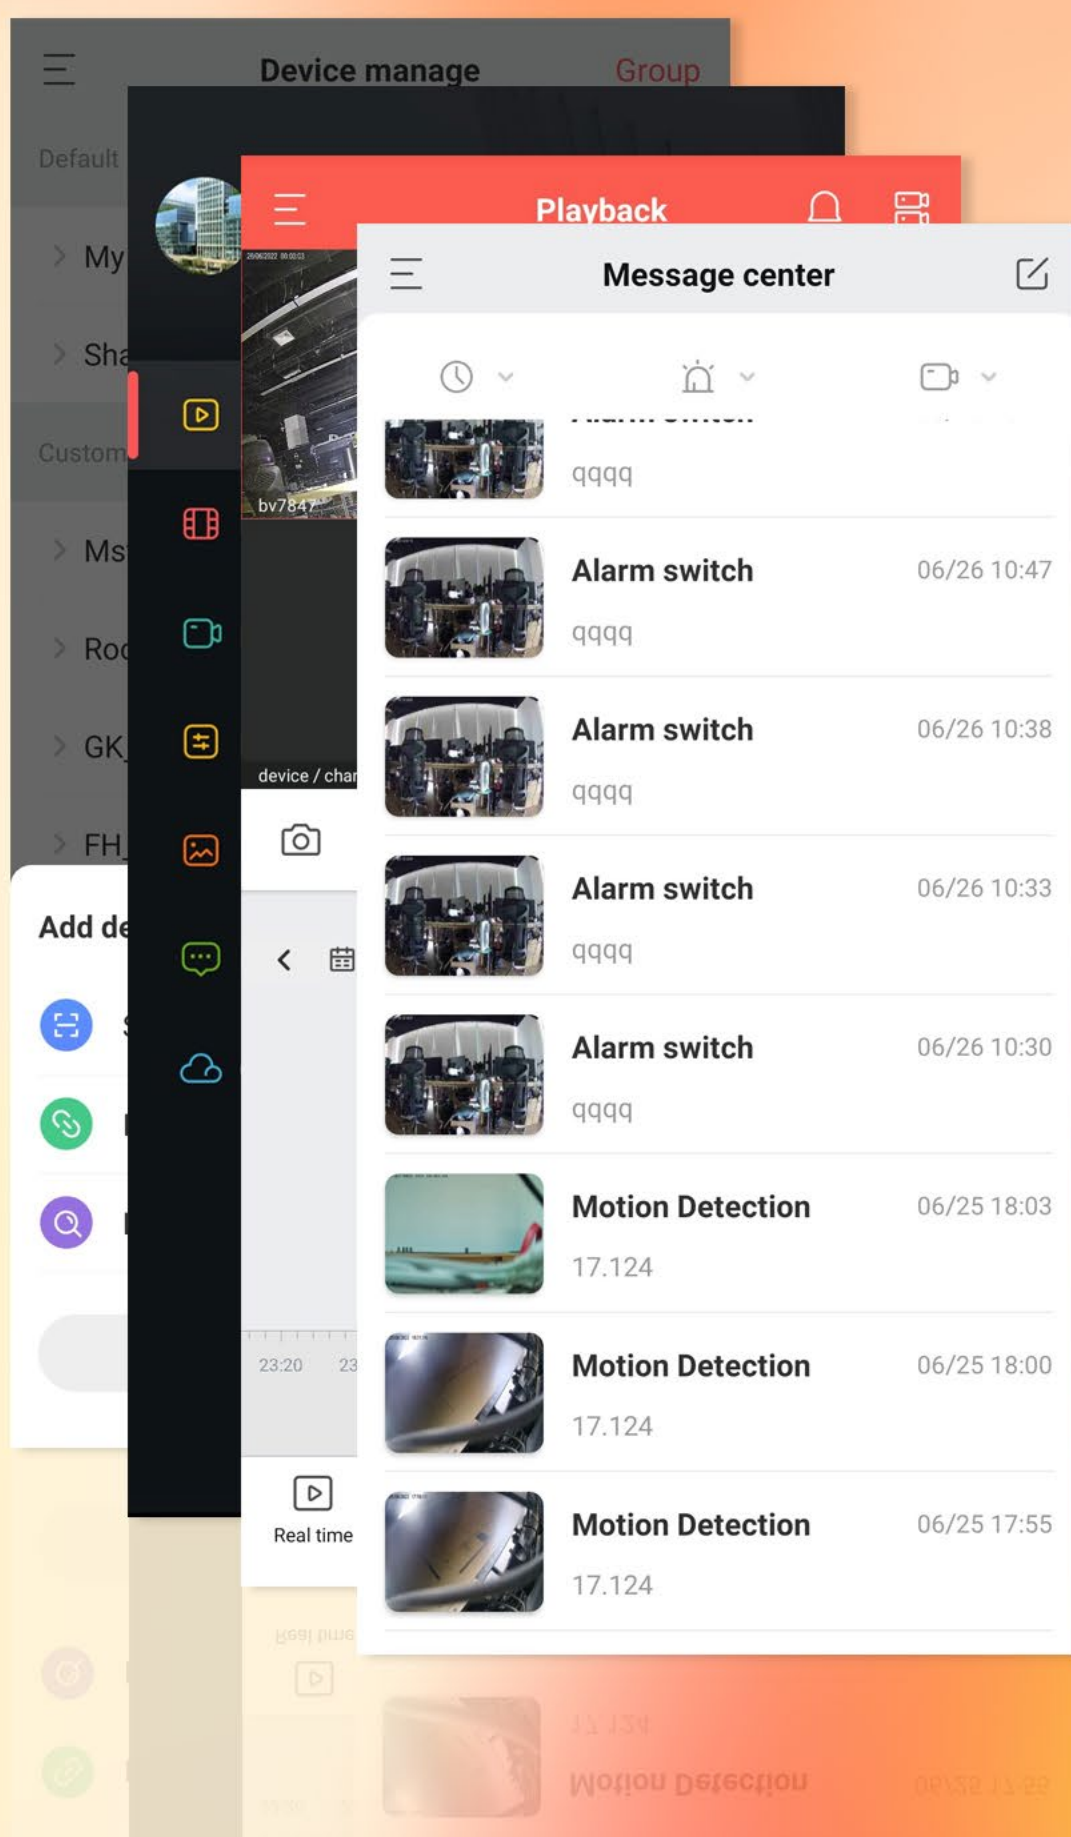

Bitvision New Version

New Feelings · New Experiences

Appearance

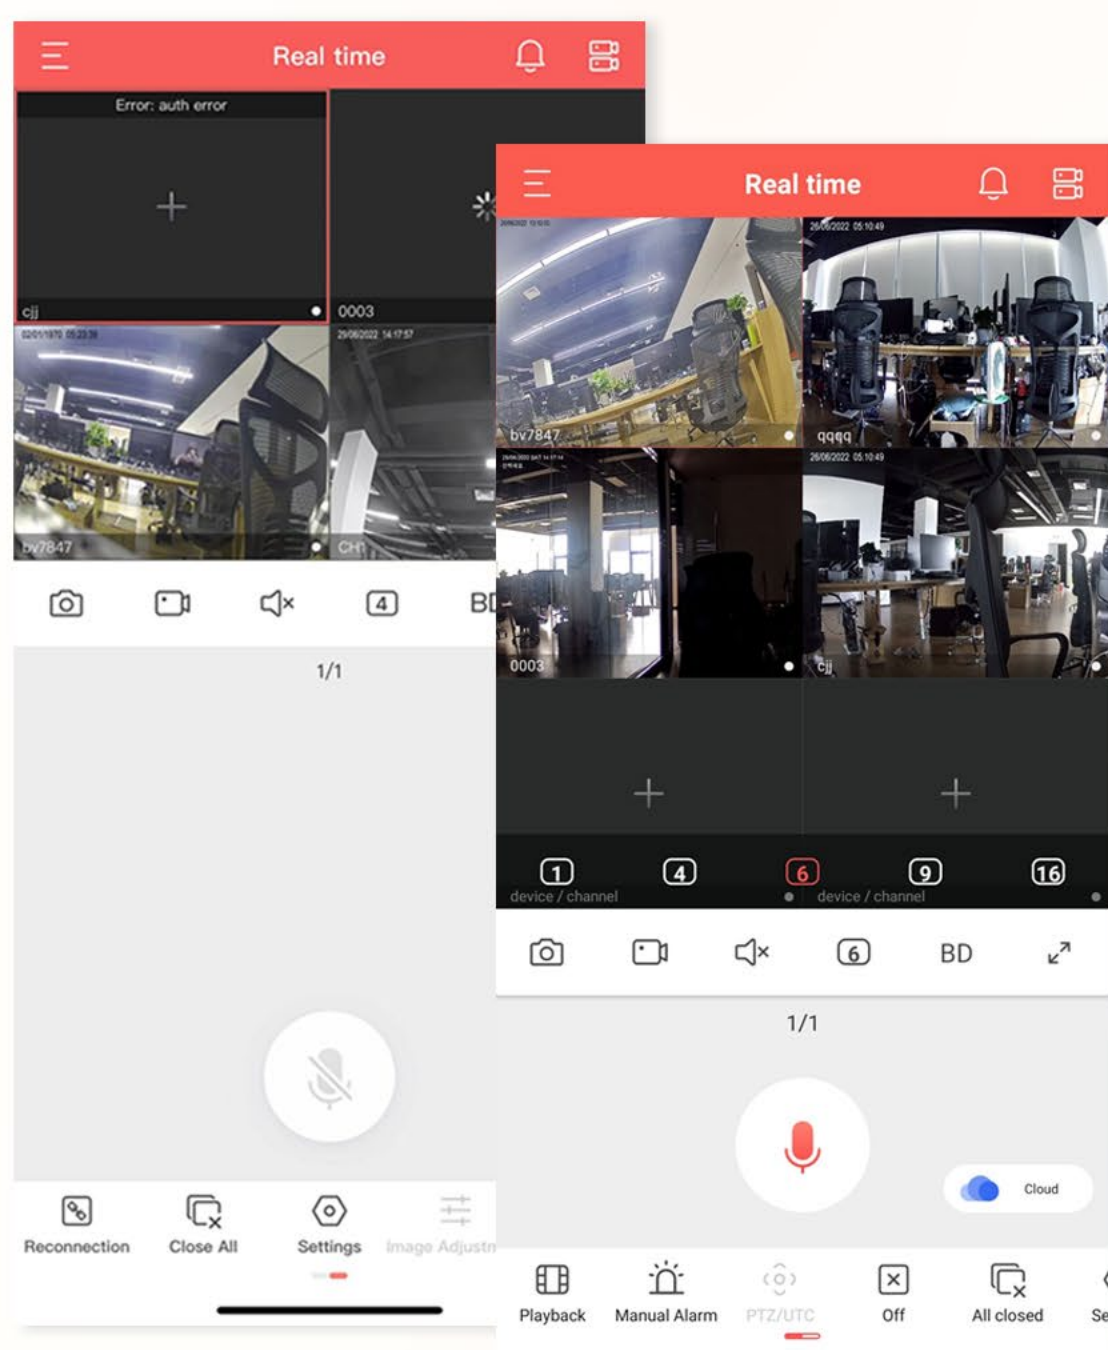

UI font type, size and layout, icons, and colors are simpler and more beautiful.

Multi-screen Display & Toolbar

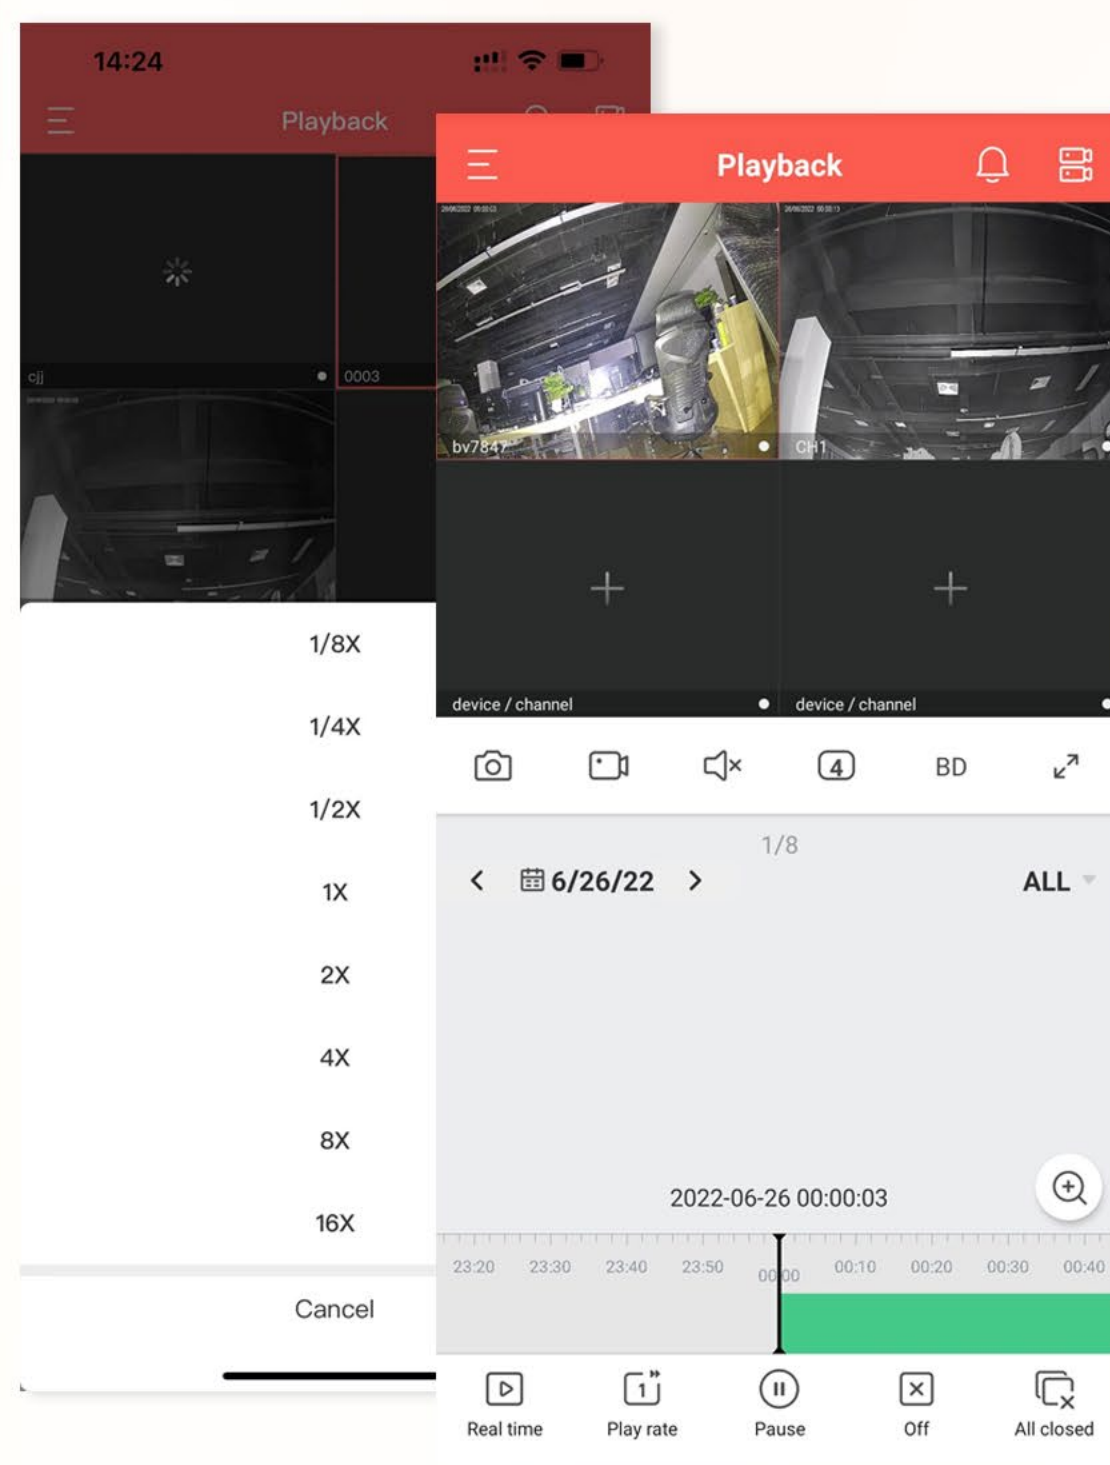

Supports 1/4/6/9/16 multi-screen display

Supports manual alarm, the PTZ function interface, preset point, preset cruise, quick access to device configuration, image adjustment, device sharing and message center.

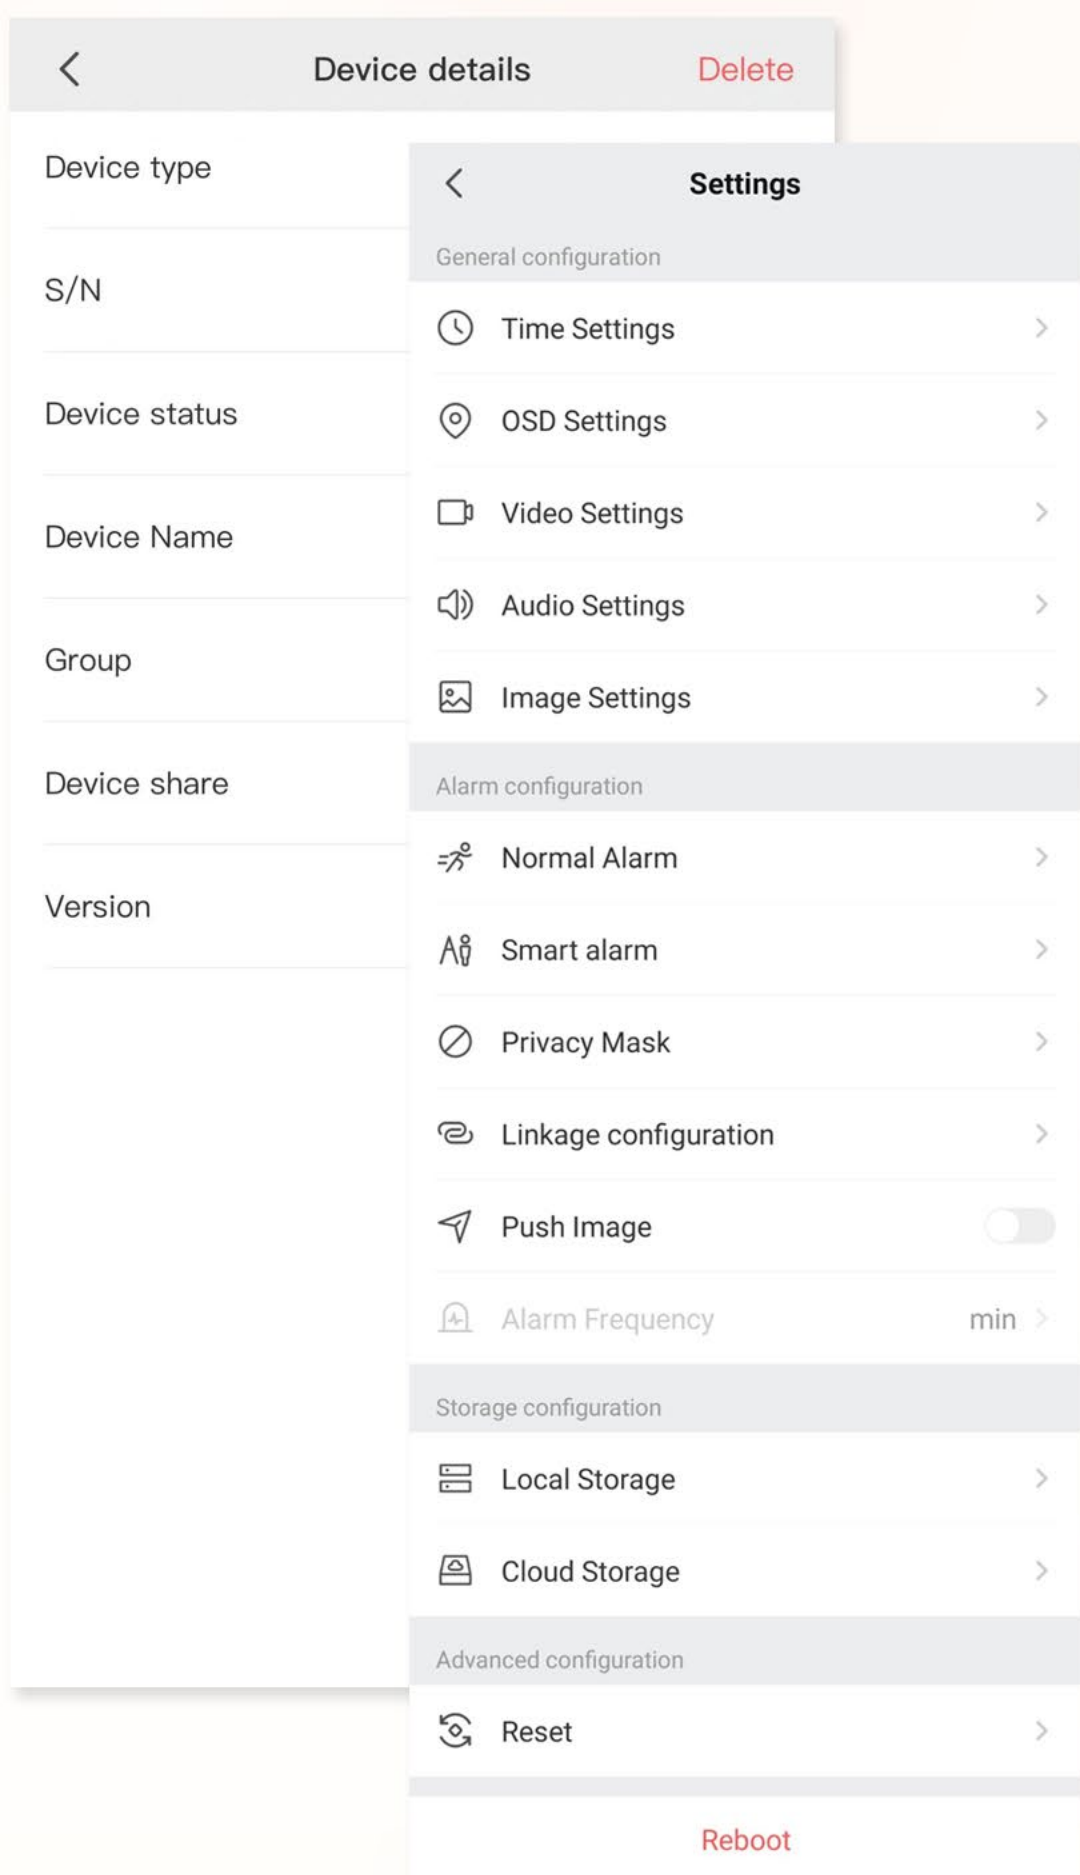

Playback

The playback speed supports a maximum of 16X, a minimum of 1/8X, and supports playback pause, which is easy to operate and has a better experience.

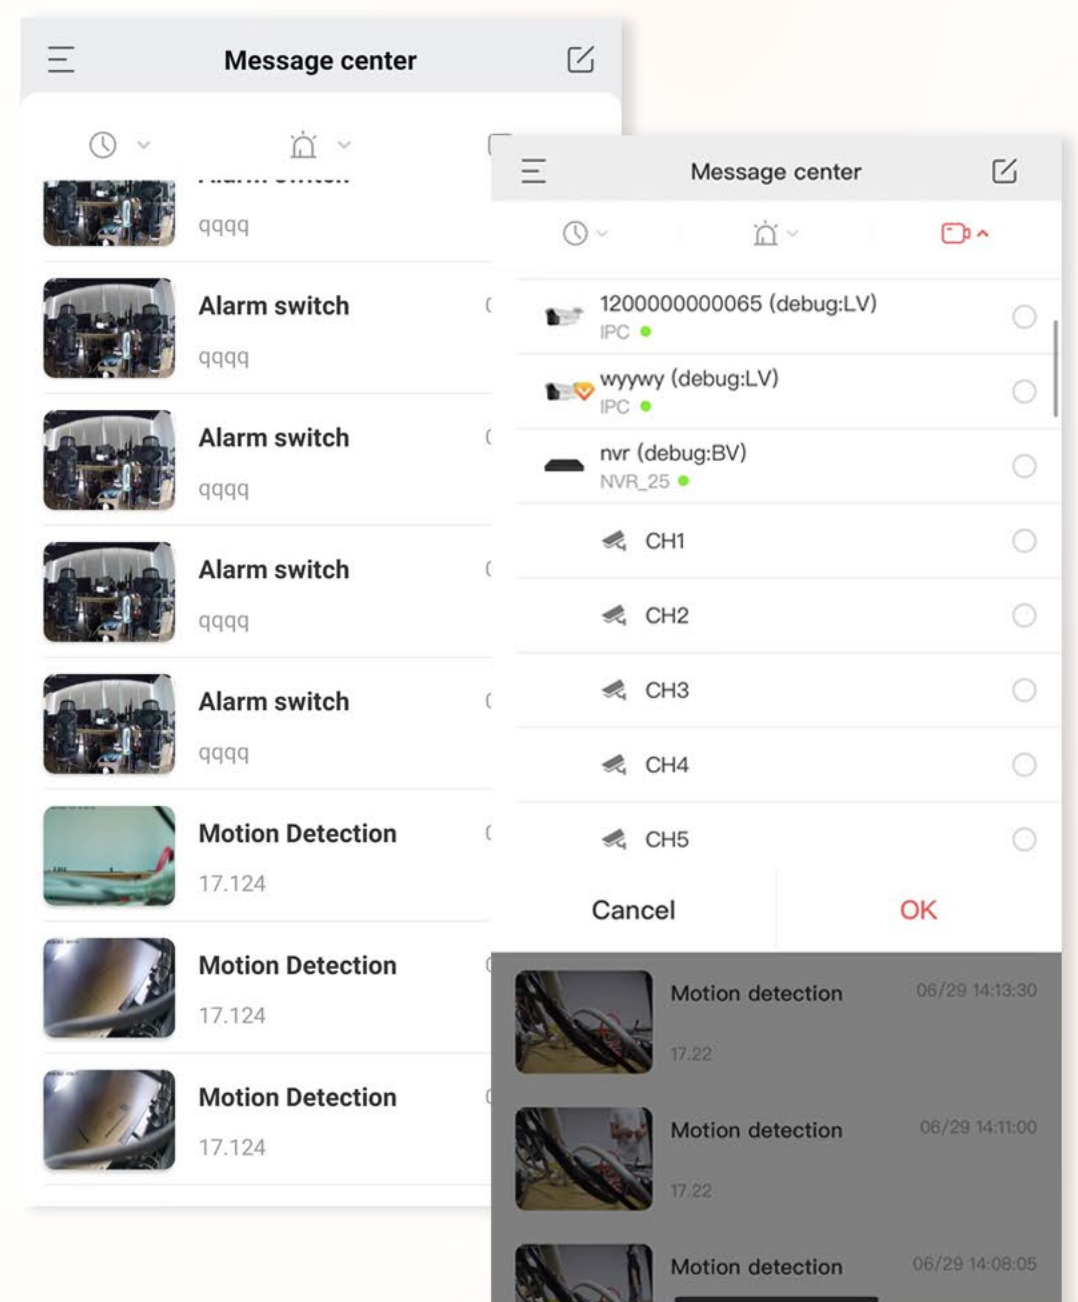

Comprehensive Functions

Almost all the functions of the device on the web are covered.

Message Center

Supports the display of all messages of motion detection and intelligent event alarm, and can support filtering corresponding alarm information by time, type, and device, which is conducive to customer investigation and targeted viewing.
